

# Django is HTTP in, HTTP out

- Defining our home view

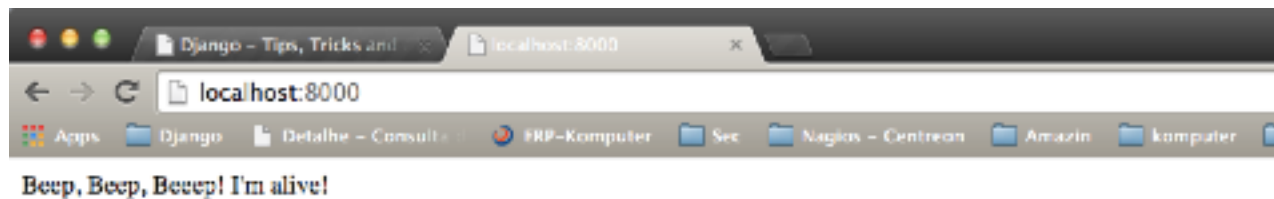

*<project>\_website/views.py*

```
1 from django.shortcuts import render
2 from django.http import HttpResponse
3
4 # Create your views here.
5 def home(request):
6     return HttpResponse("Beep, Beep, Beeep! I'm alive!")
```

# Django is HTTP in, HTTP out

- With manage.py running...

- But... I didn't see any HTML!
